

CANNABIS GROWERS.

Clearly Clean Water will protect your irrigation equipment and plants from hard water scale damage while improving the health and strength of your plants.

Great water quality is an affordable improvement you can easily make to reduce costs while benefiting plant growth in outdoor and indoor cannabis growing operations.

Water Filtration

THIS removes over hundreds of contaminants from your water supply to provide cannabis plants with the best water quality at the lowest cost.

Hard Water Descaler

THIS changes the molecular construction of hard water minerals to prevent leaf burning, encourages healthy growth and protects equipment.

Our philosophy is to foster a strong association between how *Clearly Clean Water* will have a healthy biological influence on our bodies and preventative repairs and maintenance to our homes and businesses.

Vulcan Electronic Hard Water Descaler

THIS changes the molecular construction of hard water minerals

70 Countries Worldwide | Eco-Friendly | Salt Free | Maintenance-Free

Vulcan Fights Against Hardwater Scale and Rust

Stops the natural elements found in water from depositing rust and hard water scale in pipes, equipment, plant leaves and whatever your water supply touches

Gently sanitizes your water pipe system and whatever your water touches; by breaking down rust, scale and limestone deposits on a molecular level and removing these elements safely through natural water flow

Protects your piping, equipment and whatever else your water touches from corrosion and perforation damage caused by hard water elements

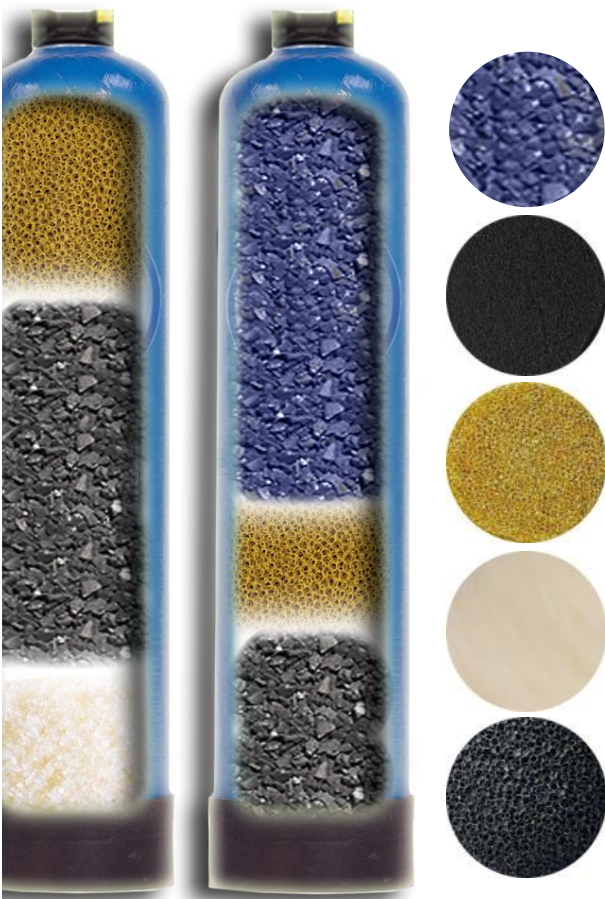

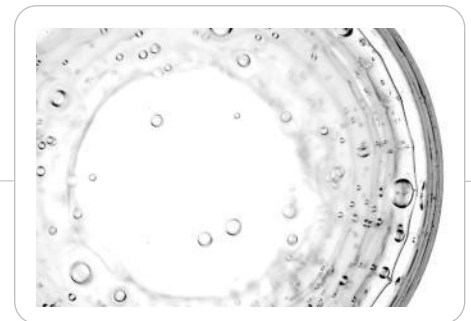

Our philosophy is to foster a strong association between how *Clearly Clean Water* will have a healthy biological influence on our bodies and preventative repairs and maintenance to our homes and businesses.

CuZn Water Filtration System

THIS removes over 200 contaminants from your water supply

VIRTUALLY no drop in pressure, ability to remove 200 contaminants

1-10 year filter lifespan | Recyclable media with no wasteful backwashing

Protect Consumers and Staff from harmful water impurities

- ✓ **Filter** out Chemicals, Volatile Organic Compounds and other contaminants using patented technologies developed and manufactured in the USA
- ✓ **Saves** your company money across every aspect of owning a commercial water filtration system as very little maintenance is required
- ✓ **Helps** the environment by eliminating waste water backwashing and recyclable filtration mediums

Our philosophy is to foster a strong association between how *Clearly Clean Water* will have a healthy biological influence on our bodies and preventative repairs and maintenance to our homes and businesses.
