

## COFFEE SHOPS.

**Clearly Clean Water will protect ALL your equipment from hard water scale damage and the health of your customers from ingesting harmful water impurities.**

Great water quality is an affordable improvement you can easily make to reduce costs in various capacities around your store. More importantly though; use your water quality as a distinguishable marketing factor.

### Hard Water Descaler

THIS changes the molecular construction of hard water minerals

### UV Water Disinfection

THIS disinfects your entire water supply from harmful pathogens

### Water Filtration

THIS removes over 600 contaminants from your water supply

Our philosophy is to foster a strong association between how *Clearly Clean Water* will have a healthy biological influence on our bodies and preventative repairs and maintenance to our homes and businesses.

# Vulcan Electronic Hard Water Descaler

**THIS** changes the molecular construction of hard water minerals

70 Countries Worldwide | Eco-Friendly | Salt Free | Maintenance-Free

## Vulcan Fights Against Hardwater Scale and Rust

**Stops** the natural elements found in water from depositing rust and hard water scale in pipes, coffee machines, kitchen equipment, and whatever your water supply touches

**Gently sanitizes** your water pipe system and whatever your water touches; by breaking down rust, scale and limestone deposits on a molecular level and removing these elements safely through natural water flow

**Protects** your piping, equipment and whatever else your water touches from corrosion and perforation damage caused by hard water elements

Our philosophy is to foster a strong association between how *Clearly Clean Water* will have a healthy biological influence on our bodies and preventative repairs and maintenance to our homes and businesses.

# Viqua Potent Ultraviolet Disinfection

**THIS** disinfects your entire water supply from harmful pathogens

DOES NOT affect pressure, change the taste or odor of your water  
1+ year UV lamp lifespan | Inactivates micro-organisms' DNA

## Disinfect Your Building's Water Supply Without Chemicals

- ✓ **Inactivates** pathogens in your entire water supply rendering them incapable of causing harm and illness to customers and employees
- ✓ **Protects** your water against micro-organisms; in particularly the dangerous chlorine-resistant protozoan parasites *Cryptosporidium* and *Giardia*
- ✓ **Provides** peace-of-mind knowing your location's water is truly clean before it is consumed through direct beverage consumption or indirectly through any other means.

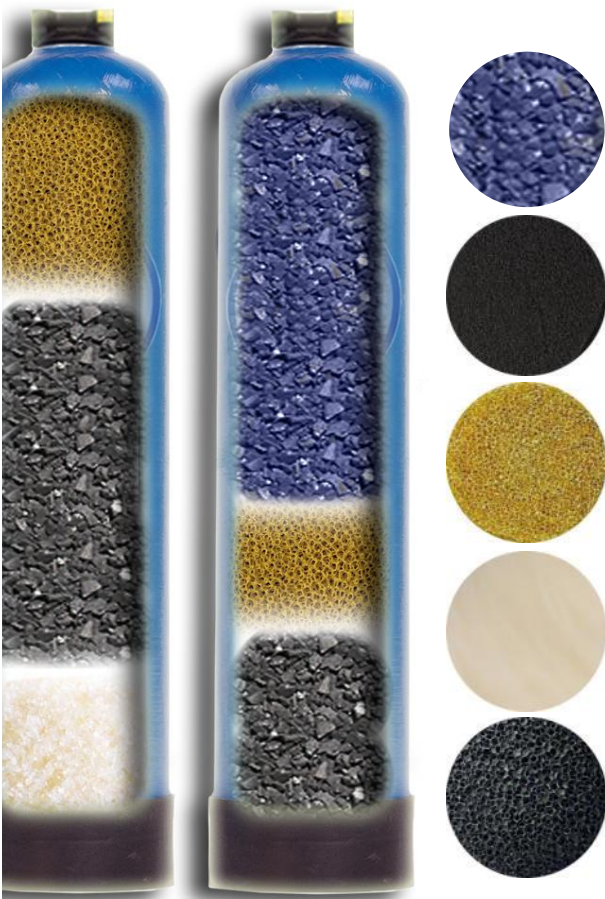

Our philosophy is to foster a strong association between how *Clearly Clean Water* will have a healthy biological influence on our bodies and preventative repairs and maintenance to our homes and businesses.

# CuZn Water Filtration System

**THIS** removes over 600 contaminants from your water supply

VIRTUALLY no drop in pressure, ability to remove 600 contaminants

1-5 year filter lifespan | Recyclable media with no wasteful backwashing

## Protect Consumers and Staff from harmful water impurities

- ✓ **Filter** out Chemicals, Volatile Organic Compounds and other contaminants using patented technologies developed and manufactured in the USA
- ✓ **Saves** your company money across every aspect of owning a commercial water filtration system as very little maintenance is required
- ✓ **Helps** the environment by eliminating waste water backwashing and recyclable filtration mediums

Our philosophy is to foster a strong association between how *Clearly Clean Water* will have a healthy biological influence on our bodies and preventative repairs and maintenance to our homes and businesses.
