

GOVERNMENT.

lower equipment replacement and maintenance costs by simply addressing your water supply and redirect your savings into something more positive

Clearly Clean Water **will help government facilities save money** on their maintenance budget and reduce equipment replacement expenditure; a win-win solution for Tax Payers, Government Facilities and Personnel.

Hard Water Descaler

THIS changes the molecular construction of hard water minerals

UV Water Disinfection

THIS disinfects your entire water supply from harmful pathogens

Water Filtration

THIS removes over 600 contaminants from your water supply

Our philosophy is to foster a strong association between how *Clearly Clean Water* will have a healthy biological influence on our bodies and preventative repairs and maintenance to our homes and businesses.

Vulcan Electronic Hard Water Descaler

THIS changes the molecular construction of hard water minerals

70 Countries Worldwide | Eco-Friendly | Salt Free | Maintenance-Free

Vulcan Fights Against Hardwater Scale and Rust

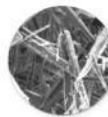

Stops the natural elements found in water from depositing rust and hard water scale in pipes, cooling systems, kitchen equipment, pools, and whatever your water supply touches

Gently sanitizes your water pipe system and whatever your water touches; by breaking down rust, scale and limestone deposits on a molecular level and removing these elements safely through natural water flow

Protects your piping, equipment and whatever else your water touches from corrosion and perforation damage caused by hard water elements

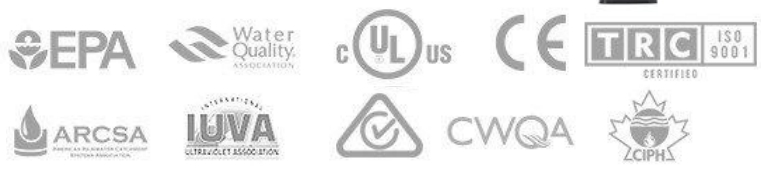

Our philosophy is to foster a strong association between how *Clearly Clean Water* will have a healthy biological influence on our bodies and preventative repairs and maintenance to our homes and businesses.

Viqua Potent Ultraviolet Disinfection

THIS disinfects your entire water supply from harmful pathogens

DOES NOT affect pressure, change the taste or odor of your water
1+ year UV lamp lifespan | Inactivates micro-organisms' DNA

Disinfect Your Building's Water Supply Without Chemicals

- ✓ **Inactivates** pathogens in your entire water supply rendering them incapable of causing harm and illness to visitors and personnel
- ✓ **Protects** your water against micro-organisms; in particularly the dangerous chlorine-resistant protozoan parasites *Cryptosporidium* and *Giardia*
- ✓ **Provides** peace-of-mind knowing your location's water is truly clean before a visitor or staff consume it through food preparation, serving coffee, or by any other direct contact

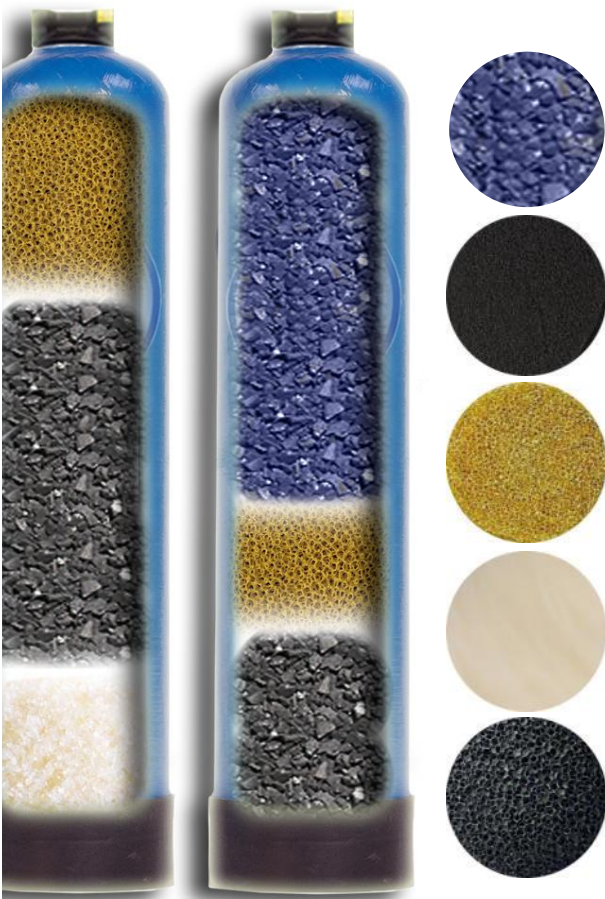

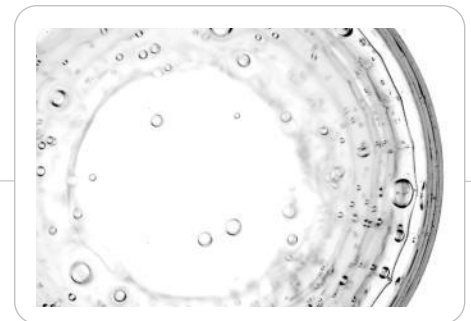

Our philosophy is to foster a strong association between how *Clearly Clean Water* will have a healthy biological influence on our bodies and preventative repairs and maintenance to our homes and businesses.

CuZn Water Filtration System

THIS removes over 600 contaminants from your water supply

VIRTUALLY no drop in pressure, ability to remove 600 contaminants

1-5 year filter lifespan | Recyclable media with no wasteful backwashing

Protect Citizens and Visitors from harmful water impurities

- ✓ **Filter** out Chemicals, Volatile Organic Compounds and other contaminants using patented technologies develop and manufactured in the USA
- ✓ **Saves** government offices money across every aspect of owning a commercial water filtration system as very little maintenance is required
- ✓ **Helps** the environment by eliminating waste water backwashing and recyclable filtration mediums

Our philosophy is to foster a strong association between how *Clearly Clean Water* will have a healthy biological influence on our bodies and preventative repairs and maintenance to our homes and businesses.
