

LARGE STRUCTURES.

The natural minerals in water leaves behind a coating of lime-scale on everything water passes through; slowly destroying everything it touches. Extend the lifespan of your facilities, equipment and reduce maintenance and energy costs.

Clearly Clean Water relates over to **saving your company money** through extending your equipment's lifespan, lowering the amount of cleaning products used and protecting your real-estate assets.

Our philosophy is to foster a strong association between how *Clearly Clean Water* will have a healthy biological influence on our bodies and preventative repairs and maintenance to our homes and businesses.

Vulcan Electronic Hard Water Descaler

THIS changes the molecular construction of hard water minerals

70 Countries Worldwide | Eco-Friendly | Salt Free | Maintenance-Free

Vulcan Fights Against Hardwater Scale and Rust

Stops the natural elements found in water from depositing rust and hard water scale in pipes, water pumps, sprayer nozzles, HVAC and whatever your water supply touches

Gently sanitizes your water pipe system and whatever your water touches; by breaking down rust, scale and limestone deposits on a molecular level and removing these elements safely through natural water flow

Protects your piping, equipment and whatever else your water touches from corrosion and perforation damage caused by hard water elements

Our philosophy is to foster a strong association between how *Clearly Clean Water* will have a healthy biological influence on our bodies and preventative repairs and maintenance to our homes and businesses.
