Clearly Clean Water solution for preventing hard water scale damage to school equipment and protecting student and faculty health from water contamination

Clearly Clean Water **will save each school in the district** maintenance and equipment replacement costs; safeguard students and staff from the negative health impurities found in municipal water. Partnering with school PTA's may provide a strong fundraising initiative and healthier communities.

Hard Water Descaler

THIS changes the molecular construction of hard water minerals

UV Water Disinfection

THIS disinfects your entire water supply from harmful pathogens

Water Filtration

THIS removes over 600 contaminants from your water supply

Our philosophy is to foster a strong association between how *Clearly Clean Water* will have a healthy biological influence on our bodies and preventative repairs and maintenance to our homes and businesses.

Vulcan Electronic Hard Water Descaler

70 Countries Worldwide | Eco-Friendly | Salt Free | Maintenance-Free

Vulcan Fights Against Hardwater Scale and Rust

Stops the natural elements found in water from depositing rust and hard water scale in pipes, cooling systems, irrigation, restroom facilities and whatever your water supply touches

Gently sanitizes your water pipe system and whatever your water touches; by breaking down rust, scale and limestone deposits on a molecular level and removing these elements safely through natural water flow

Protects your piping, equipment and whatever else your water touches from corrosion and perforation damage caused by hard water elements

Our philosophy is to foster a strong association between how *Clearly Clean Water* will have a healthy biological influence on our bodies and preventative repairs and maintenance to our homes and businesses.

Viqua Potent Ultraviolet Disinfection

DOES NOT affect pressure, change the taste or odor of your water
1+ year UV lamp lifespan | Inactivates micro-organisms' DNA

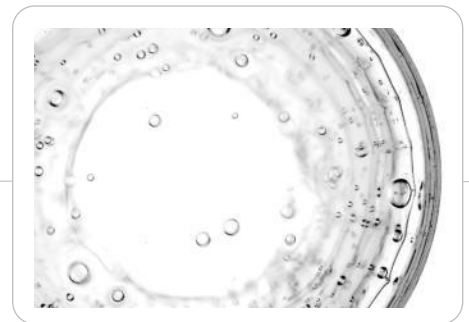

Disinfect School Water Without Using Chemicals

- ✓ **Inactivates** pathogens in the school's water supply rendering them incapable of causing harm and illness
- ✓ **Protects** your water against micro-organisms; in particularly the dangerous chlorine-resistant protozoan parasites *Cryptosporidium* and *Giardia*
- ✓ **Provides** peace-of-mind knowing the school's water is truly clean before students or staff consume it from fountains or in preparing food in the school cafeteria

Our philosophy is to foster a strong association between how *Clearly Clean Water* will have a healthy biological influence on our bodies and preventative repairs and maintenance to our homes and businesses.

CuZn Water Filtration System

VIRTUALLY no drop in pressure, ability to remove 600 contaminants
1-5 year filter lifespan | Recyclable media with no backwashing

Provide Staff and Students with Impurity Free Water

- ✓ **Filter** out Chemicals, Volatile Organic Compounds and other contaminants using patented technologies developed and manufactured in the USA
- ✓ **Saves** the school money across every aspect of owning a commercial water filtration system as very little maintenance is required
- ✓ **Helps** the environment by eliminating waste water backwashing and recyclable filtration mediums

Our philosophy is to foster a strong association between how *Clearly Clean Water* will have a healthy biological influence on our bodies and preventative repairs and maintenance to our homes and businesses.
